UNMATCHED DURABILITY

FORGED SPHERICAL ROD END

The hinges and the hydraulic cylinder pins of the blade are mounted on spherical rod ends, ensuring smooth and durable articulation. The 2-3/4" / 70 mm rod ends are greaseable for optimal lubrication. This technology allows for full misalignment compensation, relieving stress on the hydraulic cylinder and wing during the blade's operation.

JROD-S50

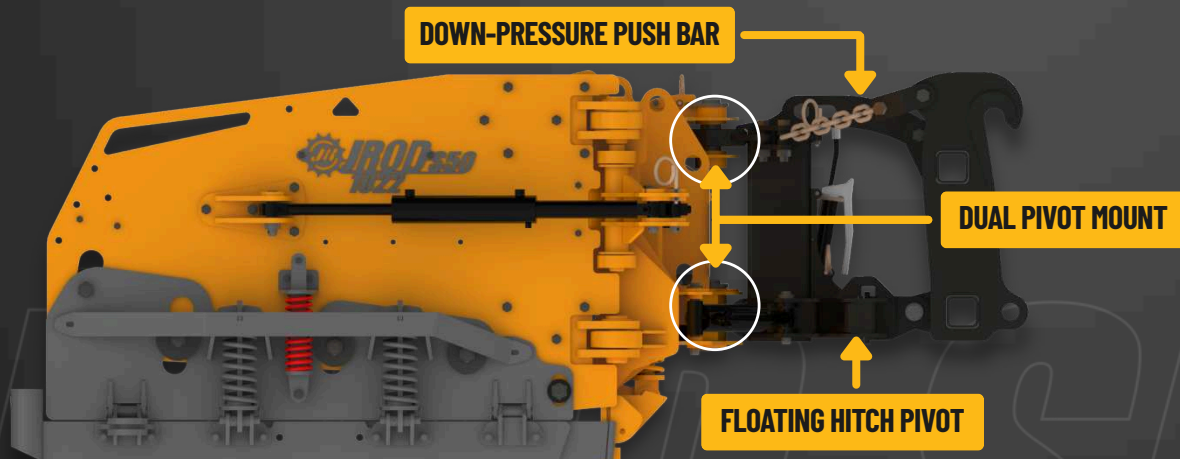

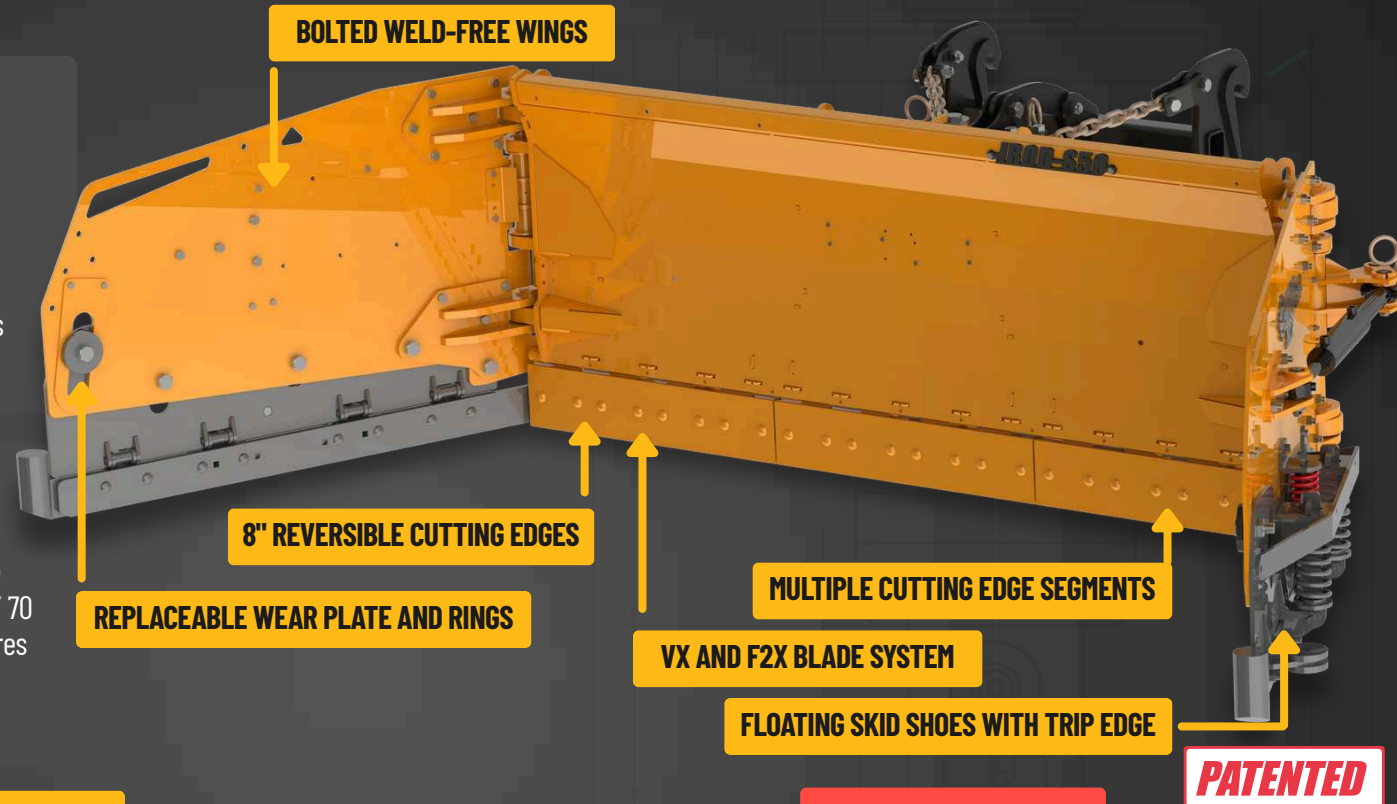

UNPARALLELED STRENGTH

BOLTED WINGS

Our weld-free design uses bolts to fasten the wings to the hinges. This ensures optimal flexibility and ease of maintenance. Built from high-strength, high-flexibility alloy steel, the wings provide excellent durability. This configuration ensures a uniform distribution of loads across the structure.

DUAL PIVOT MOUNT

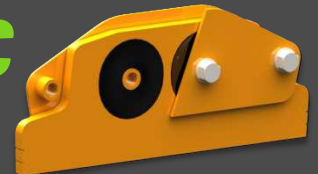

The blade angle adjustment system is supported both at the top and bottom of the main moldboard, mounted on 2-3/4" / 70 mm greaseable spherical rod ends. This configuration ensures an even distribution of the load applied to the moldboard, maintaining rigidity and long-term durability of the plow.

JROD-S50

F2X / F2X-C

Blade with cushioning pads designed to adapt to ground imperfections. "C" option: carbide edge.

VX

Blade with cushioning pads.

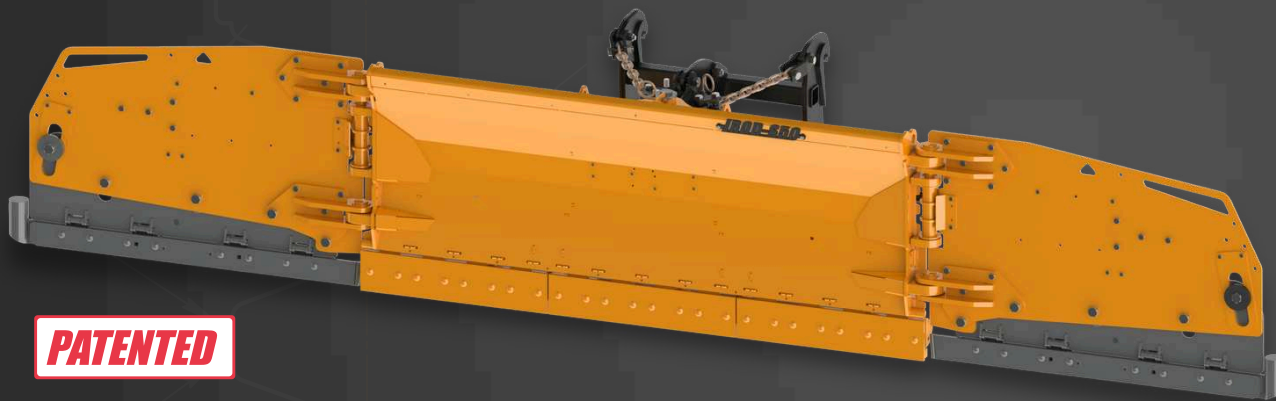

PATENTED

DURABLE POWDER-COAT FINISH

COLOR OPTIONS

The JROD standard finish is yellow. Six optional colors are available to match your fleet or preferences, each using our durable industrial powder-coat finish for long-lasting protection. For optional colors, conditions may apply.

SUPERIOR ENGINEERING

TECHNICAL HIGHLIGHTS

- Multi-section trip-edge blades for increased precision and efficiency.
- Greaseable hinge with spherical rod ends for enhanced durability.
- Equipped with a 2-3/4" / 70 mm pins.
- Cylinders with spherical rod ends for impact absorption.
- Greasable pins on every pivot points.
- Adjustable working angle up to 30 degrees.
- Protective housing for hydraulic valves to increase longevity.
- Spring trip-edge blades to prevent damage.
- Reversible cutting edges to double wear life.
- Four identical wing cylinders.
- Fast-response hydraulic relief system.
- Delivers an outstanding, clean, streak-free finish.

ALASKA SHEAR & PLOW

ALASKA'S J-ROD STATE DEALER

ALASKA'S J-ROD STATE DEALER

Alaska Shear & Plow is a family owned and operated business, conveniently located on the Kenai Peninsula as Alaska's J-Rod state dealer.

Proudly supplying the entire State of Alaska with the full range of J-Rod plows — sizing, ordering, delivery and parts. We support every plow we sell, right here on Alaska's Kenai Peninsula.

We work diligently to size your new J-Rod plow to your machine — its weight, tires, hydraulics and working conditions.
